

INDEX TO VOLUME XV

GENERAL ALPHABETICAL INDEX

Entries from the Synopsis of Periodical Literature are indicated by S. (Synopsis); from the Analysis of Current Electrochemical, Chemical and Metallurgical United States Patents by P. (Patents); from the Digest of Electrochemical United States Patents Prior to July, 1902, by D. (Digest).

A

Abbé, Paul O.	53
Abrasives. Aluminous abrasives from waste garnet. Davenport. (P.)	359
Abrasives. Finely Crystalline. Tone (P.)	359
Abrasives. Process of manufacture. Allen. (P.)	265
Acetic acid	480
Acetone	480
Acids, resisting iron apparatus. Design of Swindin	647
Adams, Roger C.	500
Alaska Gold Mines Co.	174
ALCOHOLS:	
—Cheap production. Breckler	380
—Ethyl alcohol from wood. Kressmann	78
—Industrial conference	480
—Large domestic order	562
Alkali metals. Fused electrolysis under pressure. McNitt. (P.)	654
Allen, A. P.	607
Allen, Arthur P.	710
Allen, Glenn L.	160
Allotropy of silver. Helderman. (S.)	599
ALLOYS:	
—Brass and copper. Clamer. (P.)	601
—Chromium. Driver. (P.)	102
—Copper-alkaline earth alloys. Temple. (P.)	102
—Manganin	574
—Nichrome castings. Henderson. (P.)	267
—To withstand internal air pressure. Sleeth	352
—Untarnishable iron alloy. Brearly. (P.)	655
Alumina inclusions in steel. Sauveur	149
ALUMINIUM:	
—Annealing of Seligman and Williams	244
—Castings and forgings. McKinney	351
—Composition for welding and soldering. Weatherford. (P.)	657
—Determination of	271
—Dust in gold and silver precipitation. Rose. (S.)	598
—Electrolysis of cryolite magnesium oxide mixture. Thompson	504
—Increase in Japanese industry	21
—Soldering. Litot. (P.)	657
Aluminium chloride. Effect of in formation of gasoline from oils. Egloff and Moore	340
Aluminous abrasives furnace. Allen. (P.)	265
Alunite in British Columbia	52
American Alkali & Acid Co.	205
American Association for the Advancement of Science. Program of New York meeting	676
American Blower Co.	220
American Chemical Society,	
—New York section:	
—Report of meeting	561
—Revision of chemical statistics	505
New York meeting, Report	379
New York meeting. Ladies' committee program	230
Program of New York meeting	124
—Detroit section. Announcement of meetings	577
—Program of meeting with American Association for Advancement of Science	676
American Electrochemical Society:	
—New York meeting:	
—Program	124, 230, 282
—Report of	381
—Report of "Made in America" session	382
—Report of concluding sessions	475
—Program of Fall meeting	6
—Report of Committee on Public Relations on Nitrate Situation	172

—New York Section:	
—Meeting on chemistry of the gas industry	560
—Program of joint meeting with Illuminating Eng. Soc.	440
—Report of meeting with Illuminating Society on gas industry	621
—Program of meeting with American Association for Advancement of Science	676
American Electroplaters Society	53
American Foundrymen's Association, Exhibitors at Cleveland	292
American Institute of Chemical Engineers:	
—Cleveland meeting report	5
American Institute of Metals:	
—Program of Cleveland meeting	230
—Cleveland meeting, Announcement	292
—Cleveland meeting, Report	375
—New officers	500
American Institute of Mining Engineers—Arizona meeting	221
—Arizona meeting, Report	377
—Arizona meeting, Report	481
—Itinerary of Arizona tour	167
American Iron and Steel Institute, Announcement of St. Louis meeting	436
American Peat Society	408
American Physical Society. Program of meeting with American Association for Advancement of Science	676
American Products Co.	513
American Smelting & Refining Co., Hayden plant	170
American Society for Testing Materials—Report of Atlantic City meeting	10
American Society for Testing Materials—Report of Atlantic City Meeting	59
American Vanadium Co.	271
Amids, Manufacture. Ashcroft. (P.)	603
AMMONIA:	
—By-product coal ammonia as a domestic nitrate source. Riley	112
—By-product coal ammonia. Porter	470
—From coke ovens	38
—Oatwald process of oxidizing to nitric acid. Zeisberg	299
—Oxidation to nitric acid. Landis. (P.)	539
—Synthetic	220
—Synthesis of Zenghelis	318
Ammonium sulphate used in making carbon articles. Hinckley. (P.)	359
ANALYSIS:	
—Cellulose in wood	53
—Determination of chromium in ferrochromium. MacFarland	279
—Determination of light oils in coal gas and description of method for separating the light oils from the absorbing oil. Duvall	626
—Determination of sulphuric anhydride. Pierce	353
—Nickel in iron ores. Covitz	682
—Oxygen, carbon monoxide and dioxide recorder	542
—Western Chemical Laboratories organized	710
—White bearing metals for copper and lead. Jackson	166
Anchor Mill	204
Anderson, W. P.	661
Angel, H. Reeve	499
Apparatus exhibit at Cambridge, Mass.	585
Arizona Copper Co. Flow sheet	484
Arizona. Metallurgical plants	167
Artificial fiber gas mantles. Knoedler	635

Asbestos, long fibred deposits in Arizona	537
Asphalt. Introduction of Colloids. Richardson	606
Asphalt. Research fellowship	500
Assay furnace. Bosworth type	660
Assaying. Cupellation losses in	374
Assaying. Distribution of silver between metallic lead and litharge-containing slags. Lathe	166
Association of Chemical Manufacturers	54
Automobile factories. Research needed. Ten Broeck	552
Auto tires. Use of rubber sponge inner tube. King	681

B

Baekeland, L. H.	367
Bailey weir meter	267
Baker, David F.	219
Baker, Merrill G.	432
Ball mills. For regrinding. Kiliani	112
Ball mills. Hollinger Consolidated	372
Balke, C. W.	500
Baltimore Copper Smelting & Rolling Co.	220
Barite in Northern Ontario	544
Barium, Richards	27
Barrett Company	102
Barrows, Walter A., Jr.	270
Bartlett & Snow Co.	271
Barytes. Southern mining. Sandy Bottom Barytes Mines	616
Batteries. Active materials and electrolyte of the alkaline battery. Turnock	259
Batteries. Alkaline storage. Turnock	53
Bausch & Lomb Optical Co.	87
Bauxite. Increased production	669
Belgian Kiddies, Ltd.	262
Belts. Testing of conveyor belts. Robertson and Johnston. (S.)	380
Benzaldehyde and benzoic acid. Gibbs	15
Benzene (Benzol): See also Oils.	
Benzol. Cracking of a gas oil. Egloff and Twomey	125
Benzol. From naphthalene derivatives. Egloff	39
Benzol. From coke ovens	692
Benzol. From thermal and pressure decomposition of pentanes and hexanes. Egloff	26
Beryllium. Richards	607
Bingham, Eugene C.	432
Bishop, F. L.	52
Bissel, G. M.	606
Bitumens. Introduction of colloids. Richardson	649
Bitumens. Outline for the study of	432
Blanchard, A. H.	
Blast furnace: See Furnace: Blast.	
Blasting with liquid oxygen in salt mines	161
Block Chemical Laboratories	312
Board of British Scientific Societies	372
Boiler tubes. Coarsening of. Howe	
BOOK REVIEWS:	
—American Fertilizer Handbook for 1916	220
—Brearley. Heat treatment of tool steel	545
—Bullens. Steel and its Heat Treatment	108
—Canadian Trade Index	660
—Charnock, G. F. Mechanical Technology	54
—Firth. Practical physical chemistry	545
—Flanders. Galvanizing and tinning	711
—Jobling, E. Catalysis and Its Industrial Applications	607
—Journal of the Institute of Metals. Edited by G. Shaw Scott	711
—Megraw. The Flotation Process	545
—Le Bas. Molecular Volumes of Liquid Chemical Compounds	108

BOOK REVIEWS—Continued:

—Lewis. A system of physical chemistry.....	711
—Upton. Materials of Construction.....	54
—Williams. Niagara, Queen of Wonders.....	368
—Wilson, L. C. The Corrosion of Iron. New fields in Chile.....	607
Borax. Copper castings containing boron.....	357
Boron. boron. Gleason. (P.).....	102
Boron. Richards.....	28
Bosworth Assay Furnace.....	660
Braden Copper Co. Roasting and acid plants. Wise. (S.).....	102
Brashear, John A.....	661
Brass. Annealing of arsenical brass. Thalheimer and Mathewson. (S.).....	651
Brass. Effect of corrosion on the ductility and strength. Merica.....	321
Brass. Reclamation of brass ashes. Taggart. (S.).....	651
Brass. Seasoning, cracking and self-annealing. Arthur.....	651
Brass and copper alloys. Clamer. (P.).....	601
Brass Foundry. Barnes.....	578
Brayton, C. C.....	160
Brewing industry. Nowak.....	380
Brick. Methods for testing. Discussion of paper.....	60
Brick. Symposium on refractories.....	671
Bromine.....	203
Bromine. Equilibrium between bromine and potassium bromide solution. Jones and Hartmann.....	479
Brown Hoisting Machinery Co.....	220
Brown Hoisting Machinery Co. Rapid coal unloader.....	605
Brown Instrument Co.....	271
Browne, Wm. H., Jr.....	432
Bruce, James L.....	545
Bruere, Henry.....	607
Brunton, Frederick K.....	710
Bully Hill. Electrolytic zinc.....	285
Bumgardner, J. W.....	607
Burch, H. Kenyon.....	160
Bureau of Mines. New stations.....	165
—Proposed gasoline specifications.....	557
—Radium production.....	275
Burgess, J. A.....	52
Burrell, George A.....	499
Butte & Superior Copper Co.....	174

C

Cadmium. Recovery from ores, flue dust, furnace products, etc. Stevens. (P.).....	657
Calcium. Richards.....	27
Calcium carbide. New Norwegian factory.....	627
Calcium cyanamid. New Norwegian factory.....	627
California. New industries.....	285
California. New chemical industries.....	511
Calorizing as applied to power plant equipment.....	498
Calumet & Arizona Mining Co.....	167
Calumet & Arizona. Flow sheet.....	483
Cameron, Frank K.....	52
Canaigre tannin and guayule rubber. Canby.....	668
Capillary Chemistry. Technical applications. Lewis.....	253
Carbolic acid. Manufacture in Germany. Raschig. (S.).....	415
Carbon. Calcining furnace. Clymer. (P.).....	103
Carbon articles. Use of ammonium sulphate. Hinkley. (P.).....	359
Carbon dioxide recorder. Mono.....	542
Carnegie Institute of Technology. School of Applied Industries.....	219
Carrier Air Conditioning Co.....	54
Captains of industry. Training of Hadfield.....	171
Castings, machinery, chilled, malleable and general. Johnson.....	683
Caustic soda. (See also Sodium chloride electrolysis).....	287
Cells. Characteristics of small dry cells. Burgess.....	477
Cells. Electrolytic. Moore-Allen.....	287
Cells. Electrolytic. Whiting.....	288
Cellulose. In wood.....	53
Cement. Chemistry of Portland cement. Dickmann.....	41
Cement. Grading in the cement industry. Wiard.....	685
Cement. Properties of. Rankin. (S.).....	44
Cement. Tricalcic silicate in. Rankin. (S.).....	213
Census of dyestuffs available.....	710
Centrifugal pumps. Selection of. McCord.....	679
Ceramic engineering building of University of Illinois.....	579
Cerium.....	30
Cerium and its compounds.....	357
Chain drive for aniline kettles.....	650
Chatburn, G. R.....	432
Chemical Exposition. See Exposition.....	
Chemical industries of French Indo-China.....	605
Chemical industries. Principles of organization.....	579
Chemical market prices.....	712
Chemical terms. Inconsistency of some common terms. Hering.....	649
Chemist in public service.....	561
Child, Ernest.....	545

Chino Copper Co.....	8
Chloridizing. Sulphide ores. Malm. (P.).....	157
Chloridizing residue from leached copper concentrates. Addicks.....	628
Christensen, H. L.....	607
Christensen, Nels C.....	607
Chromium. Alloys. Driver. (P.).....	103
—Effect of chromium in hardening steel. Edwards. (S.).....	100
—Effect of foundry irona. Johnson.....	642
—Richards.....	29
Clarage Fan Co.....	271
Clark, W. L.....	607
Clays and their products. Schramm.....	576

COAL:

—Bituminous output.....	152
—By-products as a source of fixed nitrogen. Porter.....	470
—Cost of. Smith and Leshner.....	631
—Grading in the coal industry. Wiard.....	685
—Iron production and coal reserves.....	434
—Powdered fuel vs. oil in metal heating furnaces. Harrington.....	668
—Pneumatic powdered system.....	217
—Pulverized under stationary boilers.....	365
—Rapid unloader.....	605
Cobalt. Electrolytic extraction of cobalt oxide. Guiterman. (P.).....	601
Coho, H. B.....	607
Cohoe, Wallace P.....	219

COKE:

—British tar distillation industry. Coleman. (S.).....	356
—By-products. Childs.....	38
—By-products as a source of fixed nitrogen. Porter.....	470
—By-product oven.....	222
—Increased by-product coking.....	56
—Increase in by-products.....	184
—Production in 1915.....	107
—Recuperator wall for ovens. Roberts. (P.).....	539
—Rotary pump for by-product service.....	658
Coke ovens. By-product. Determination of light oils from coal gas. Duval.....	626
Coke-oven accidents.....	10
Cole, Thomas F.....	681
Colloids. Outline for study of bitumens.....	649
—Chemistry of Bancroft.....	379
—Emulsions and suspensions with molten metals. Gillett. (S.).....	540
—Industrial section of A. C. S.....	381
—Introduction into bitumens. Richardson.....	606
—Metals, paints, rubber, plaster of paris.....	540
—Selective adsorption and differential diffusion. Alexander. (S.).....	540
Colorado Central's old dumps being tested for process.....	507
Colorado Iron Works Co.....	220
Colorado School of Mines. New president.....	281
Colville, David.....	607
Coming meetings and events. Regular department. See index in front of each issue.....	
Commissioner of chemistry.....	223
Commonwealth Mining & Milling Co.....	170

CONCENTRATION:

—Arizona meeting of A. I. M. E.....	487
—Ball mill for regrinding Kiliani.....	112
—Dry process of Sutton, Steel & Steele.....	620
—Empire concentrating table.....	659
—Grading in the cement, coal and cork industries. Wiard.....	685
—Hartford Mining Co. remodeling 300-ton mill.....	561
—Increased output of mills.....	372
—Prince Consolidated mill.....	561
—Recovering values in mine dumps.....	507
—Selection of a method of ore treatment. Young.....	297
—Screen efficiency. Lewis.....	668
—Zinc in the Joplin district. Parmelee.....	319
Concrete. Specifications for concrete aggregates. Chapman. (S.).....	213
Condenser. New barometric.....	104
Conductivity. Its relation to microstructure.....	551
Conductivity versus chemical composition. Fink.....	464
Conductors. Analysis of tank resistance in electrolytic refining. Addicks.....	566
Conductors. Proper current densities. Hood.....	571
Congress. Time factor in human affairs.....	4
Congress and technical affairs.....	164
Conklin, H. R.....	203
Consolidated Arizona Smelting Co.....	170
Construction news. Regular department beginning with Nov. 1 issue.....	
Converters in Arizona.....	335
Cooling towers.....	367

COPPER:

—Brass and copper alloys. Clamer. (P.).....	601
—Castings containing boron. Gleason. (P.).....	102
—Coatings on iron. Cowper-Coles. (P.).....	601
—Comparison of electrolytic and Lake copper. Mathewson and Thalheimer. (S.).....	599
—Copper-alkaline earth alloys. Temple. (P.).....	102

COPPER—Continued:

—Corrosion of tinned sheet copper. Merica. (S.).....	415
—Dust losses at Copper Queen. Samuel. (S.).....	155
—Flotation of oxidized ores. Ralston and Allen.....	154
—Flowing temperature of copper and copper-nickel mattes. Guess and Lathe.....	46
—Leaching:	
—Arizona meeting of A. I. M. E.....	484
—Extraction process. Slater. (P.).....	652
—Method of making leaching solution. Slater. (P.).....	654
—Wet copper process. Greenway. (P.).....	602
—Wet treatment of copper concentrates. Addicks.....	628
—Proper current densities. Hood.....	571
—Recovering from solutions. Schrater and Laughlin. (P.).....	602
—Refining:	
—Analysis of tank resistance. Addicks.....	566
—Electrolytic apparatus. Greenawalt. (P.).....	158
—Electrolytic cell for copper solutions. Greenawalt. (P.).....	538
—Electrolytic cell construction. Greenawalt. (P.).....	654
—Metal tie-up. Addicks.....	305
—Sources of metal loss. Addicks.....	11
—Sources of metal loss. Liddell.....	279
—Refining process. King. (P.).....	157
—Smelting:	
—Agglomeration of sulphides for pyritic smelting. Payne. (P.).....	49
—Arizona meeting of A. I. M. E.....	483
—Cost accounting in constructing and operating a copper smelter. Thum.....	96
—Features of new Arizona plants. McGregor.....	329
—Metallurgical plants in Arizona.....	170
—Notes on copper smelting at the United Verde Copper Co.....	251
—Twinned crystals in electrolytic copper. Rawdon.....	406
Copper chief Mine.....	170
Copper Queen Consolidated. Flow sheet.....	482
Copper Queen Consolidated Mining Co.....	169
Cork. Grading in the cork industry. Wiard.....	685
Corn Products Refining Co. Court orders dissolution.....	9
Cornell, Sidney.....	607
Cornish, E. J.....	499
Corrosion:	
—Atmospheric of sheet iron. Richardson.....	450
—Effect on brass. Merica.....	321
—Testing the durability of pipe under corrosion. Speller.....	87
—Theory of the corrosion of steel. Aitchison.....	88
—Tinned sheet copper. Merica.....	415
Corwin, F. R.....	710
Cost accounting. Construction and operation of a copper smelter. Thum.....	96
Cost system for manufacturers.....	271
Cotton gas mantles.....	638
Cottrell, F. G.....	219
Cottrell dust-collecting system.....	331
Cottrell precipitation for phosphoric acid. Craddock, F. L.....	106
Crushers. Symon's disc crushers.....	105
Crowley Co., John A.....	220
Cunningham, Noel.....	219
Cuntz, William C.....	607
Current density charts. Hood.....	571
Cutler-Hammer Mfg. Co.....	271
Cutting. Comparison of oxyhydrogen and oxy-acetylene. Schuck.....	218
Cyanamid. Process. Lidholm. (P.).....	215
Cyanides. Electric furnace process. Linblad. (P.).....	215

D

Daniels, Joseph.....	52
Degenhardt, W. R.....	607
Delaney, C. R.....	710
Deming, Horace G.....	500
Denver Fire Clay Co.....	271
Derick, C. G.....	500
Desollars, T. C.....	661
Detroit Chemists' meetings.....	577
Detroit Copper Mining Co.....	170
Devine Co., J. P.....	219
Digest of electrochemical U. S. patents.....	108, 162, 271
Distillation. Operation and costs of an eight-effect distilling plant. Leilich. (S.).....	213
D'Olier Centrifugal Pump & Machinery Co.....	107
Doerner, H. A.....	106
Dolbear, Samuel H.....	270
Douglas, James. Gift to United Engineering Library.....	622
Dow, H. W.....	562
Drager Oxygen Apparatus Co.....	21

INDEX.

V

Drilling tools. Removing from oil and gas wells. Snelling. (P.).....	658
Driver-Harris Wire Co. Castings.....	159
DYESTUFFS:	
—British Dyes, Ltd., report.....	641
—British manufacture. (S.).....	416
—Childs.....	40
—Coal-tar dye industry, past, present and future. Hesse.....	120
—Conference on American manufacture.....	440
—Department of Agriculture to study.....	432
—Design of factories for. Moses.....	293
—Government census available.....	710
—Industry developing in Japan.....	107
—New phase in the dyestuff tariff fight before Congress.....	
—Processes used in making intermediates. Ney and Van Marle.....	289
—Processes used in making intermediates. Ney and Van Marle.....	585
—Status of new tariff law.....	283
—Tariff. Hart.....	112
—The dyestuff tariff before Congress. Provisions of Revenue Bill.....	65

E

Economics. Swinburne.....	687
Education. Science and industry. Swinburne.....	687
Efficiency. Open fall conference.....	437
Eimer & Amend.....	219, 271
Electric properties and microstructure.....	551
Electrical instruments. American.....	574
Electrochemistry. Possibilities of Pacific Coast as compared with Sweden and Norway. Beckman.....	18
Electrochemistry. Why people should interest themselves in it.....	109
Electrochemical industries of Niagara. Fitz Gerald, Tone, Hooker, Edmands, Lidbury and Acheson.....	115
Electrochemical industries and Western waterpowers. Langford.....	166
Electrodes. Prevention of disintegration. Van Arsdale. (P.).....	538
Electrolysis. High temperature heat developed. Hering.....	454
Electrolysis under pressure. McNitt. (P.).....	654
Electrolytic refining. Metal tie-up. Addicks.....	305
Electrotyping. See also Plating.	
—Apparatus. Hallock. (P.).....	162
—Coating molds with graphite. Blake. (D.).....	272
—Deposition of copper. Blum, Holler, and Rawson.....	477
—Hangers for molds. Fertig. (D.).....	272
—Holder. (D.).....	162
—Mold. (D.).....	162
Elements. Their essential attributes. Theodore W. Richards.....	62
Elyria Enameled Products Co.....	270
—New laboratory.....	542
Emmons, N. H., 2nd.....	367
Empire concentrating table.....	659
Enameled ware. New laboratory of Elyria Enameled Products Co.....	542
England. New courses in industrial chemistry.....	571
Erichsen machine for testing metal sheets.....	709
Eriaman, J. F.....	607
Evaporation. Simplex and multiplex evaporators for tannin extracts.....	361
Evaporation. Specifications for single and multiple effect evaporators.....	449
Explosives. Hygroscopic properties of sodium, potassium and ammonium nitrates, potassium chlorate and mercury fulminate. Taylor and Cope.....	140
Export. Common sense of export trade.....	53
Exposition: Second chemical:	
—Announcements.....160, 176, 221, 229,	283
—List of exhibitors.....	288
—Opening exercises and list of exhibitors.....	418, 437

F

Faraday Society. Symposium on refractories.....	671
Fashbinder, A. J.....	432
Fash, R. H.....	270
Federal Lead Co. New mill.....	7
Feldspar. Raw material for manufacture of electrolytic potassium chlorate.....	627
Ferromanganese. Premelting device. (S.).....	415
Ferromanganese. Production in electric furnace. Schagrin. (P.).....	265
Ferromolybdenum. Manufacture. Fleck. (S.).....	653
Fibrox. Examination of electrical properties. Northrup.....	409
Filter. Portland.....	53
Filtration. Principles of.....	198
Financial news. Regular department beginning with Nov. 1 issue.....	
Fire brick. Effect of compression loads. Mellor and Moore. (S.).....	45

Fire brick. Practical methods of testing. Nesbitt and Bell.....	205
Fire brick. Texture of. Mellor.....	671
Fire clays. Properties of plastic fire clays.....	408
Fire-resisting materials.....	149
FLOTATION:	
—Air flotation.....	620
—Bubbles. Clayton.....	279
—C-B machine.....	488
—Callow cell.....	455
—Callow plant.....	397
—Cole-Bergman frothing classifier.....	398
—Devices for regulating the flow of oil.....	620
—Dielectric constants and flotation values of oils. Clayton.....	504
—Experiments in a Joplin tailing. Whitaker, Belchic, Neal and Van Velsor.....	131
—Explanation of the process. Taggart and Beach.....	518
—Flinn-Towne machine.....	397
—Hyde suit.....	555, 665
—History of the process at Inspiration. Gahl.....	393
—History of the process at Inspiration. Gahl.....	455
—Interesting points in Maimi suit decision. Schwarz.....	553
—Joplin zinc district. Parmelee.....	321
—K and K machine. Kollberg and Kraut. (P.).....	216
—Lead ores in Southeast Missouri.....	93
—Liquid jets. Ellis.....	58
—Miami suit.....	433
—Miami suit decision.....	441
—Minerals. Separation cells.....	457
—Minerals. Separation flotation machines.....	399
—Oxidized ores. Ralston and Allen.....	153
—Pine oil. Jones. (S.).....	598
—Report of Arizona meeting of A. I. M. E.....	481
—Tests at Santa Gertrudis. Rose. (S.).....	599
—The flotation of minerals. Anderson.....	82
Foundry. Chemical and physical properties of foundry irons. Johnson.....	683
—Theory. Gahl.....	463
—Vindicator test plant.....	372
—Zinc tailings at Joplin.....	7
Flue dust reduction process. Boggs. (P.).....	601
Flue dust treatment. Ryan. (P.).....	158
Fluorspar in 1915.....	107
Flynn, F. N.....	545
Foote, E. T.....	270
Formic acid. Electrolytic process of making. Vaygouny. (P.).....	47
Foundry. Brass. Barnes.....	578
Foundry. Chemical and physical properties of foundry irons. Johnson.....	589
Foundry. Chemical and physical properties of foundry irons. Johnson.....	642, 683
Fox, A. M.....	607
Foxboro Co.....	270
Franklin Institute lecture.....	570
Franklin medal. Presentation to Theodore W. Richards.....	61
Fraser, George W.....	106
French, T. E.....	432
French Indo-China. Chemical and mineral industry.....	605
Friday Copper Mining Company.....	562
Fuel economy in Great Britain. Armstrong. (S.).....	354
Fuel. In Russia.....	368
Fuel. Powdered coal versus oil in metal heating furnaces. Harrington.....	668
Fuller Engineering Co. Lime plant.....	50
Fuller-Lehigh pulverizer mills.....	365
Fuller, Ralph L.....	52
Furnace. Annealing furnace using coal, coke, oil or gas. Kenworthy. (P.).....	103
Furnace. Assay. Bosworth furnace.....	660
FURNACE: BLAST	
—Blast furnace performance.....	57
—Blast furnace products. Johnson.....	324
—Blast furnace top. Bailey. (P.).....	537
—Census of American industry.....	513
—Commercial considerations. Johnson.....	235
—Copper blast furnaces in Arizona. McGregor.....	331
—Irregularities and their treatment. Johnson.....	69
—Irregularities and their treatment. Johnson.....	127
—Production of phosphorus. Gray. (P.).....	48
—Rate of driving. Johnson.....	21
Furnace. Calcining carbon. Clymer. (P.).....	103
FURNACE, ELECTRIC:	
—General:	
—Electric furnace steels. Conference.....	448
—Gronwall-Dixon Anniversary.....	137
—Symposium on refractories.....	674
—Use in brass foundry. Barnes.....	578
—Various designs:	
—Cyanogen compounds. Linblad. (P.).....	215
